To whom it may concern

Ref: Turov Stanislav – Osteogenic Sarcoma treatment plan-major surgery-estimated cost

Dear Sir/Madame, thank you for approaching SCMCI. Following the evaluation, Dr. Israel Wiess, the Head of Onco-Orthopedy Department and Dr. Orly Michaeli, senior oncologist and specialist in onco-genetics in the Solid Tumors Unit, recommend to proceed with a major oncologic orthopedic surgery involving joint replacement with a custom-made implant.

Procedure	Price
Major oncologic orthopedic surgery (The tumor resection and Reconstruction with custom -made prothesis) The cost includes: - Consultation of surgeon - Consultation of Anesthetist and basic laboratory tests - Custom-made prothesis - Up to three day of hospitalization in the ICU -Up to 10 days of hospitalization in Surgery Department including physio- and occupational therapy -Up to three months of Orthopedic and Physiotherapist ambulatory follow-up -Pathology examination (molecular tests not included- if needed)	149 730 USD
<u>Additional evaluations during this treatment period:</u> PET CT CT CHEST ECHO, ECG MRI (if needed- each part)	2900 USD 1100 USD 420 USD 2350 USD

***The price does not include the cost of biological, chemical, immunological treatment, additional surgical interventions, radiation treatment (if needed will be calculated separately), accommodation and transportation services neither for the patient nor for the accompanying person.**

***This price offer is not final and can vary according to the evaluations, complications, additional diagnostic and treatment procedures, treatment course and currency rate changes.**

In case of any remaining funds post-treatment or unencumbered by any reason deposit, the amount will be refunded to your original bank account. Please be aware that the hospital's accounting system is denominated in shekels, and therefore, all payments received or refunded are proceeded in shekels. The fluctuation in foreign currency rates may cause additional charges.

Quoted prices are valid for up to 1 month.
